REVIEW OF MARKETS

FINANCIAL AND COMMERCIAL

Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

Now York, Oct. 28.—The evidences of strength in yesterday's stock market attracted quite a large buying interest this morning, and the market during the first hour took the upward course will yery active trading. The demand showed however, a marked falling off during the rest of the day, and the isolated points of strength which developed from time to time proved unavailing to sustain prices, and the drift was downward until the lose, which was very generally at the low point of the day and at a level last hight. The market during the first hour was conspicuous for the great breadth of the demand, the aumber of stocks which moved being no test than 126. The aggregate number of shares dealt in was also very large. Broadly speaking, the market was a reversal of that of yesterday in that ratiroads generally wore inclined to react, while the industrial stocks moved upwards. The evidences of profittaking in the Coalers, which were manifest even in the opening dealing, prompted selling to realize in the ratiroad list.

The outside demand for stocks was very much increased and it was this which was fed by the professional operators who have been accumulating stocks at the lower level. At the same time the vigorous strength of Sugar, Tobacco Brooklyn Rapid Transit, Rubber and other industrials and the continued speculation in the Leather stocks all suffered to the extent from 1 to over 2 points in the late downward movement. Inside support was manifest in some of the newer industrials, which have been the target recently for bear attack. This was notably true of the Maiting and Glucose stocks, Malting preferred leading with a rise of nearly 6 points.

Of the low priced stocks Standard Rope and Twine was brought forward with an

pear attack. This was notably true of the Maiting and Glucose stocks, Malting preferred leading with a rise of nearly 6 points.

Of the low priced stocks Standard Rope and Twine was brought forward with an advance of 2½, half of which was subsequently lost. The Iron and Steel stocks also received favorable attention, especially Federal Steel, but gains in them were no, better held than elsewhere. There were other individual stocks which were strong at different times, including Atchison preferred, on its September statement of net carnings; Southern Railway preferred and Chesapeake and Ohio.

London was a buyer here, though on a smaller scale than yesterday, and Sterling Exchange yielded a fraction in consequence. Apprehension of an unfavorable showing by the banks on Saturday was an influence in the growing heaviness of stocks. New York exchange shows some recovery at a few important interior points, but continues downward at others, and the outward movement of money has not yet ceased. The banks net loss to the sub-Treasury thus far foots up over \$1,300,000 for the week. The rate for call money dropped suddenly near the close to 2 per cent., but only after the bulk of the day's demands had been met at 6½67 per cent. Lenders of money on time hold out for 6 per cent, and exact choice collateral. The fact is that some of the large interests operating in the market have been lenders of money, and are selling their loans for their own operations in stocks.

The dealings in bonds disclosed the same the dealing at bonds disclosed the same breadth of demand as those in stocks, many dormant issues being brought into the trading. Standard Rope and Twine the bulk of the day's demands had been may dorman issues being brought into the trading. Standard Rope and Twine the bond list reacted in sympathy with same proper and the same breadth of demand as those in stocks, many dorman issues being brought into the trading. Standard Rope and Twine the bond list reacted in sympathy with same proper and the same breast of the day

CHICAGO MARKET.

Wheat, Gorn, Oats, Provisions, Lard, Short Ribs, Btc.

Chicago, Ill., Oct. 26.—Corn led the pro-cossion or 'Change to-day and closed with a net gain of 36%. for December option. A general buying movement, induced by the growing conviction that this year's crop has been greatly over-estimated, caused the up turn. December wheat closed with a gain of 146%c, and oats 16. Provisions were dull and closed practically unchanged.

The Cotton Markets.

NEW YORK COTTON MARKET.

New York, Oct. 28.—The cotton market opened 1 to 3 points lower in sympathy with weak cables, and during the first few minutes was unsettled with foreign solling a feature. It was soon evident that good buying orders had been uncovered by the break and this demand, together with extremely light recelpts at nearly all points in the belt, led to lively covering, and during the rost of the forenoon tho general tendency of prices was upward. In the afternoon profit-taking was engaged in to some extent, but the market in the main was firm, with prices fluctuating within a few points of the best forenoon figures. Rumor had it that a Philladelphia house was buying spot cotton heavily throughout the South, and that New England spinners as well were eagerly seeking to accumulate additional supplies. Predictions for frost to-night in the Sauthwest added to the woes of shorts and encouraged outside investors to stand firm, as well as stimulating new buying. Actual port receipts for the day reached but 31,000 bales, as against 7,000 bales the same day a year ago. Export clearances exceeded receipts by several thousand bales. The market closed very steady at a net gain of 2 to 6 points.

New York, Oct. 26.—Cotton quiet; midding, 7 5-16c. Gross receipts, 1,179 bales; NEW YORK COTTON MARKET.

the Continent, 464,032 bales, 10
